

GIULIETTAVERONA®

GUIDA ALLE MISURE

ANELLI

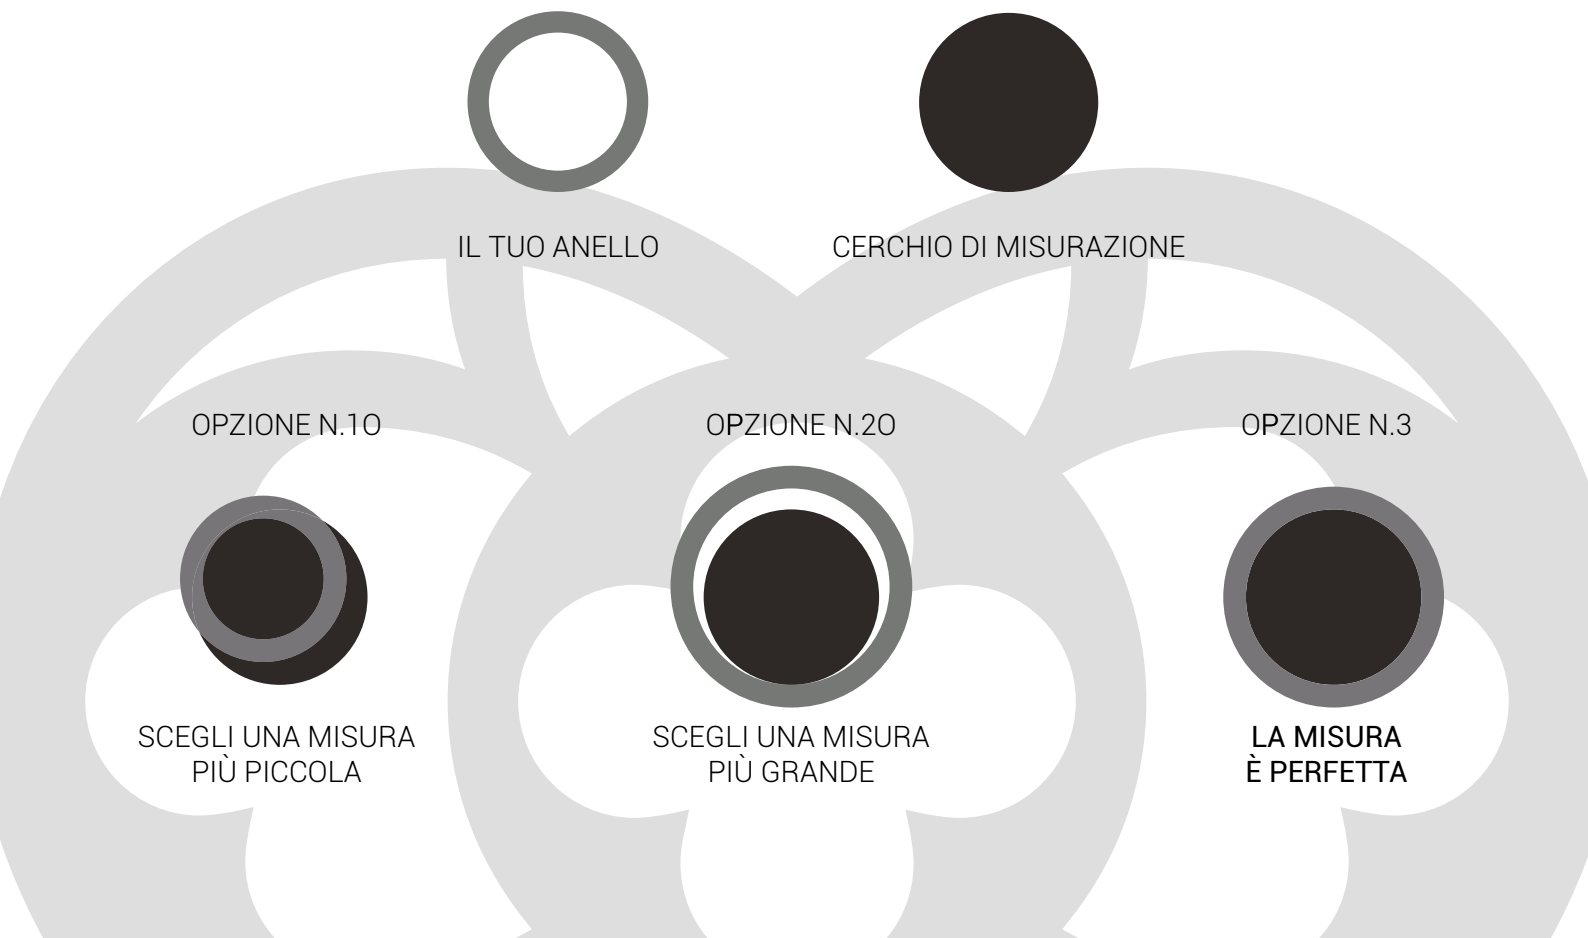

Stampare la pagina corrente in formato A4 senza adattamenti.
Per controllarne l'accuratezza di stampa, la misura del righello deve corrispondere esattamente a 2 cm.

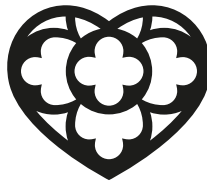

Scegliere un anello che calzi bene al dito e posizionarlo su uno dei cerchi della scheda di misurazione per determinare la misura corrispondente.

Se l'anello si adatta a due misure si consiglia di scegliere quella più grande.

Dopo avere posizionato l'anello sul cerchio corrispondente si possono verificare tre circostanze:
